

Duroob | دروب

Jordan, your way

One app to discover all of Jordan, beyond the usual stops, and plan every trip to your budget.

The problem

01

Same few places

Most visitors only hear about the famous sites, so the rest of Jordan stays unseen.

02

Budget is a guess

Tourists rarely know what a trip will cost until they are already spending.

03

No local touch

Visitors miss the culture and beliefs that make Jordan feel like home to its people.

Tourists, foreign and local, need one simple way to see the real Jordan.

Our solution: Duroob

Hidden Gems

Welcoming places across all of Jordan, on a map, not only the traditional tourist areas.

Live Jordanian

Local customs, culture and beliefs explained at each place, so visitors leave with understanding, not just photos.

Budget Planner

Enter any budget and get a suggested plan. Low budgets are respected as much as high ones.

Digital Guide

A short video that introduces each destination before the visitor goes.

Tours & Trips

Book a private VIP trip or join a group trip through the app.

SOS

One tap to key numbers: Tourism Police, Ministry of Tourism, Ambulance.

For foreign and local tourists alike

How a visitor uses it

1

Explore

Browse destinations across Jordan, from famous sites to hidden gems.

2

Set a budget

Type any budget and see the plan that fits it.

3

Watch the guide

A short video explains the place before the trip.

4

Book or ask

Reserve a trip through the app or send an inquiry.

Why Duroob is different

	Duroob	General travel apps
Plan starts from your budget	Core feature	Usually an add-on
Hidden places across Jordan	Core feature	Mostly popular sites
Jordanian culture and beliefs	Live Jordanian	Limited
Short intro video per place	Digital Guide	Varies
Built for local tourists too	Yes	Mainly foreign visitors

One app for the whole trip: discover, budget, learn, book.

Cost and sustainability

How Duroob earns

- Partner restaurants and group-trip companies join the app
- Tourists book through Duroob; revenue comes from those bookings
- No extra fees or taxes added for the tourist

What it costs

- Firebase hosting
- Domain name
- Filming the Duroob Guide videos

Low running costs, and partners benefit when tourists come.

Where Duroob goes next

Short term

Add more places across Jordan and more guide videos.

Medium term

Connect the budget planner with Live Jordanian and Hidden Gems, and open booking beyond Aqaba.

Long term

Grow into a complete guide for every visitor, with more partners.
